(54) AUTOMATIC HOUSEKEEPING BOOK PRODUCTION SYSTEM

(57)Abstract:

PURPOSE: To transmit family finances data and the automatically calculate the income/outgo for production of a housekeeping book by securing on-line connection among a POS terminal having an ID card reader, a computer set at a bank and a housekeeping book production terminal.

CONSTITUTION: A user uses an ID card 9 for payment of his/her purchase and the amount of purchase is paid through the user's account via a computer 11 set at a bank. A POS terminal 7 reads automatically the user's telephone number out of the card 9 and has automatic access to a user terminal 1. Thus the data on purchase, commodity names, money, etc., are transmitted through a communication circuit 10. The terminal 1 stores the received data in a buffer memory 2. These stored data are processed by a processor 3 via software prepared at the terminal 1 for production of a housekeeping book. This book is printed out.
